

On November 1, I emailed the State Department, requesting they speak with me, for more information. Our office emailed every business day and received no response until November 7. Then, in a scripted response, they refused my request to speak with me. No one, not one person, is willing to talk about the details.

Since they wouldn't talk to me in the privacy of my office, let me just ask them here in a public forum: Why did our ambassador die, and how did our ambassador die? It's been 2 months. You should know. Was it smoke inhalation, or was it some other cause? Was there physical evidence of torture on the ambassador's body as it was returned? And why were the bodies returned to Andrews Air Force Base when protocol dictates they go to Dover for the immediate investigation?

These questions need to be answered. The State Department needs to be forthcoming. The administration needs to be forthcoming.

I pray this Congress will exercise that authority.

#### THE OUTPOURING OF VOLUNTEERS IN REBUILDING NEW JERSEY

(Mr. PALLONE asked and was given permission to address the House for 1 minute.)

Mr. PALLONE. Mr. Speaker, I wanted to point out to my colleagues that the damage in my district and throughout my State in the aftermath of Hurricane Sandy was nothing less than catastrophic. But I really want to talk about the rebuilding effort today and what we need to do over the long term.

The amount of outpouring, if you will, from volunteers, from just regular people in the district, was just overwhelming. I want to thank FEMA. I want to thank the Red Cross, the Salvation Army, and all the different groups that are out there and continue to be out there today helping with this effort. The outpouring of volunteers from our own district and from New Jersey was just incredible.

Just a few days ago, I remember going to Union Beach, which was one of the towns that was hardest hit, and seeing so many people bring in food and clothing and cleaning supplies. One guy who owns a pizza place brought in a pizza oven and was making pizzas, and another guy brought in a TV so people could watch TV at the center where people come to sign up for FEMA. It was just amazing. It showed the spirit, if you will, of the people that they were willing to do that.

Thank you all again. Obviously, we're going to work on rebuilding, which is certainly the next step here in Congress and elsewhere.

#### BETTER LATE THAN NEVER

(Mr. DREIER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DREIER. Mr. Speaker, this being the first day that we've convened since the election, I want to begin by expressing my appreciation to our chaplain, Father Conroy, for his very inspiring and thoughtful prayer.

Mr. Speaker, we are here this week to deal with a very important issue. And I will say that we were all taught as kids, better late than never. We're here because U.S. workers at this point don't have access to 140 million potential consumers for their goods and services. I'm talking about the vote that we're going to have on so-called "Russia Permanent Normal Trade Relations."

Mr. Speaker, Vladimir Putin is not a good guy. Vladimir Putin has inflicted horrendous human rights policies on the people of Russia. We have seen crony capitalism take hold. And that's why it's very important, Mr. Speaker, that the United States of America be at the table as part of the WTO's effort to force Russia to live with the rules-based trading system.

Last year we exported \$11 billion in goods and services to Russia. If we can pass PNTR, we will double that to \$22 billion by 2017.

Mr. Speaker, it's a very important vote. We need to make sure that it's successful this week, and I'm gratified that it's going to be done in a bipartisan way.

#### EU EMISSIONS TRADING SCHEME PROHIBITION

(Mrs. BLACKBURN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. BLACKBURN. Mr. Speaker, a little bit later today the House is going to vote on the European Union Emissions Trading Scheme Prohibition Act. This is a bill that is very important to our civilian and civil aviation operators. It would block them from participating in the European Union's emissions trading scheme.

Now the reason this is important is because of this: according to Bloomberg news, the inclusion of the airline industry in the EU's 2005 cap-and-trade program will cost U.S. airline companies between—get this—\$10.1- and \$39.4 billion from 2012 to 2020. Now who do you think is going to pay that cost? Consumers are going to pay it.

The House has already decided we don't want a cap-and-trade system. We voted against that domestically, so why would we want our airline industry to have to participate in this on an international basis? MIT economists have looked at it and said the new rule will increase costs on passengers flying to Europe, all to subsidize their cap-and-trade systems.

With rising fuel costs and a down economy, we simply cannot afford this. So for these reasons, I urge my col-

leagues to protect American sovereignty to support our domestic aviation industry and vote in favor of H.R. 1956.
